

THE BLAIRMORE ENTERPRISE

VOL. XVI, NO. 47.

THE BLAIRMORE ENTERPRISE THURSDAY, NOVEMBER 19, 1925.

PIERIAN SISTERS HOLD

SUCCESSFUL TEA AND SALE
The tea and sale of home cooking, Mrs. G. McLean, Gents' first, W. Byers; second, J. A. McDonald; consolation, F. S. Kafoury.

Ladies' first, Mrs. R. Gray; second, Mrs. E. Hood, of Hillcrest; consolation, Mrs. G. McLean. Gents' first, W. Byers; second, J. A. McDonald; consolation, F. S. Kafoury.

After supper, dancing was indulged in until 2 a.m., with Mason and Bond supplying music.

Everybody had a most enjoyable time. The toll was won by Mrs. P. McPherson and the table centre by Mrs. Ervin, of Coleman.

DANIEL MAY DIES AT COAST

Word was received here on Sunday afternoon that Mr. Daniel May had passed away that morning. Mr. May had only for a few days been suffering from cancer of the stomach. He was aged sixty-five and leaves, besides his wife, one daughter, Mrs. Finlay McLaren, of State Street, Blairmore, and four sons, Messrs. Jack May, of Hillcrest; James May, of Los Angeles; A. S. May, of Blairmore, and Albert May, of Bellevue.

Upon receipt of word of Mr. May's illness, Mrs. McLaren left here about ten days ago for Vancouver.

The remains were laid to rest at Vancouver on Wednesday.

Mr. and Mrs. May were former residents of Hillcrest and Blairmore and left here for the coast quite recently.

HIGH SCHOOL DEBATING SERIES OPENS DECEMBER 1

The Magrath high school is entered in the provincial high school debate again this year and are scheduled to meet Blairmore on December 4. Banff and Redcliff teams slant the same date, the winners to meet in the semi-finals February 19. On March 5 the finals will be held at Edmonton when the winners of the southern and northern groups will debate. Magrath, Blairmore, Redcliff and Banff schools are the only ones entered in the south this year, the smallest number in the history of the debating league.

The reason for this is largely because of the difficulty school principals throughout the province are having in arranging their work according to the new unit system.

The management committee appointed by the local Elks' lodge to look after the senior hockey season held a meeting a few nights ago, at which Mr. Wilfred Goddard was chosen manager for the team. Mr. Goddard was at one time a star on the local team, but is now somewhat on the retired list.

FIRST ANNUAL BANQUET OF R.F.A.P. ASSOCIATION

The first anniversary of the formation of the Bellevue Fish and Game Protective Association was celebrated in good form at the Bellevue Inn last night, when eighty-two people sat down to a sumptuous banquet and prizes offered for the summer of 1924 were awarded.

The members and their wives and lady friends sat to a turkey supper at 8 p.m., following which a programme of speeches, community choruses, songs, etc., was ably headed by the chairman, Mr. John Kerr, president of the association.

The toast to "The King" was proposed by the chairman and ably responded to by Rev. J. W. Oliver. To "The Association" by the chairman, responded to by Mr. Chas. Emerson. To the "Press and Visiting Guests" by the chairman, responded to by Messrs. A. J. Kelly, W. J. Bartlett and Rev. J. W. Oliver.

Assisting in the programme were: Miss Hulme, with songs and piano accompaniment; Messrs. Newton, son; Costick and Utely, duets; Woolsey, F. Padgett, J. Kerr, W. Kerr and others, fish stories, all of which were highly delightful.

The most important part of the programme was, perhaps, the presentation of prizes. This duty could not fall upon more capable shoulders than those of Mr. Ed. C. Costick. In a very pleasing and witty way, Mr. Costick called upon the various fishermen as follows:

W. Newton, a reel, for the heaviest basket of speckled trout for one day's catch.

James Fisher, a reel, for the heaviest basket of grayling, one day's catch.

William Kerr, a reel, for the heaviest basket of bull trout.

James Fisher, a large fish basket donated by the C. Emerson Hardware for the heaviest grayling of the season.

A nine-foot rod, for heaviest basket of speckled trout, caught on day of competition, to W. Kerr.

Fishing rod, first prize for heaviest basket of mixed fish (not including finnan haddie), to James R. Kerr. Second prize, a reel, to Carl Doolin.

Beautiful nickel-finished steel rod, donated by J. A. Barbour for the heaviest bull trout for the season, to Jack Morton, Caribou Lake River. Also Kerr Brothers' special prize for the heaviest speckled trout for the season, to Mr. Morton, prize a pair of framed pictures. Mr. Morton's bull trout weighed 9 lbs 10 oz; the speckled trout cleaned, 2 lbs 11 oz.

James Fisher was awarded the prize for the heaviest grayling, 1 lb 12 oz cleaned.

Following the presentation of prizes, a hearty vote of thanks was accorded the genial proprietor of the Bellevue Inn and his wife, Mr. and Mrs. Walker, for the splendid manner in which the banquet was served, and the programme concluded at 1 a.m. with the singing of Auld Lang Syne.

The Bellevue Fish and Game Protective Association was organized a year ago and today has a membership of about 160. The objects of the association are to promote the propagation, preservation and protection of fish and game and the preservation of our forests. Membership in the association is practically an assurance that each member is a guardian and observant of our laws respecting game and fish and will adopt any means by which these can best be protected. The association this year set aside a day for competition and most of the prizes awarded on this occasion were to those who competed on that day.

Mr. Albert May, of Bellevue, left for Vancouver by Monday morning's train to attend the burial of his father.

LETTER OF THANKS

Fincher Creek, Alta., November 17, 1925.

To the Electors,
Federal Riding of Macleod.

Ladies and Gentlemen:
I trust that you will all accept my hearty and sincere thanks for the splendid support which was accorded me during the late federal election. I realize that many of you laid aside your past political affiliations for the purpose of voting for me. I will ever remember the kindness with which I was received at all the places which I was able to reach. Unfavorable weather and lack of time prevented me from getting in touch with many of the electors.

I hope to be able to meet you all again on some future occasion and would ask you all, in the meantime, to accept my hearty thanks and good wishes.

Yours sincerely,
JOHN HERRON.

KEMP—CARMICHAEL.

The marriage of Miss Margaret Hunter, eldest daughter of Mr. and Mrs. David Kemp, of Dearborn Street, to Mr. Harvey Carmichael, was solemnized at the United church last evening by the Rev. W. T. Young.

Following the ceremony, a reception was held at the residence of the bride's parents, where they were recipients of many useful and valuable presents, as well as the well wishes of their numerous friends.

Mr. and Mrs. Carmichael left on the evening train for Calgary and other points and upon return will take up residence in Blairmore.

MOTHER AND DAUGHTER SERVICE AT HILLCREST ON SUNDAY NEXT

On Sunday next in Hillcrest United church there will be held the annual Mother and Daughter Services. The C.G.I.T. girls are honored and favored this year in having as a speaker at this service Miss Hetherington, of Calgary. Miss Hetherington is the newly appointed girls' work secretary for the province of Alberta. There will be a girls' choir, a solo from one of the C.G.I.T. girls and one of the older girls will conduct the service. It will help the C.G.I.T. girls with the seating accommodation if the worshippers will come early, this in view of the fact that the congregation is almost certain to be a large one.

LOVE—McCRIMMON.

First Presbyterian church, Edmonton, was filled to overflowing with friends, including throngs of girls, on Thursday afternoon when Miss Katie McCrimmon, daughter of Mr. and Mrs. Malcolm McCrimmon, became the bride of Russell Love, L.A., son of Mr. and Mrs. W. H. Love, of Irma. The bride was formerly provincial girls' work secretary for the evening train for Calgary and other points and upon return will take up residence in Blairmore.

WAMPOLES TASTELESS EXTRACT OF COD LIVER OIL

Contains Wild Cherry Bark, Lime, Sodium, Potassium, Iron, Quinine and Strychnine Hypophosphates, in combination with an extract from fresh Cod Livers. This preparation has an agreeable taste and has a reconstructive tonic for Pulmonary Disease, Bronchitis, Obstructive Cough, Hoarseness, and for Nervous trouble it has no equal.

WORLD HAPPENINGS
BRIEFLY TOLD

Reports being prepared by J. D. Soper on Canadian expeditions to the Arctic, will be complete in 1926.

Rev. John Carter, 64 years of age, son of John Carter, Toronto, has been elected mayor of Oxford.

R. J. Browne, meteorologist at Washington, D.C., predicts 1926 will be a year without a summer with agriculture almost impossible.

The new Canadian Red Cross Hospital was formally opened at Englehart, Ont., by Hon. Lincoln Goldie, provincial secretary.

More than 400,000 people travelled by water between Canada and the United States during the year ending June 30th, research bureau shipping board records reveal.

A memorial tablet to the late Sir William Price was unveiled at the Armistice memorial service held at St. James' Anglican Church at Kensington, Nov. 8.

With the 1925 season of navigation nearing an end, statistics compiled at the port of Quebec show that 78,238 passengers were landed up to Nov. 7, bound for Canada and the United States.

Sir Hercules Rumbold, British ambassador to Madrid, will head the commission of the League of Nations, which will inquire into the reasons for the fighting between the Bulgars and the Greeks recently.

The Manitoba Power Company will spend \$2,000,000 in new equipment and transmission lines following successful negotiations for supply of power to the Manitoba Pulp and Paper Company mills at Fort Alexander.

The "death ray" inventor can make music come from beams of light. H. Grindell Matthews has shown how his humanlike voice can be made to come from a device for advertising in colors in the clouds.

After working on his invention for six years, John Smith, engineer of Winnipeg, claims to have perfected a "stationary engine capable of controlling and producing its own, self-manufactured power." He has a "perfect" model on demonstration.

Vice-Admiral Sir Roger Keyes, commander-in-chief of the British Mediterranean fleet, was slightly injured when an aeroplane in which he was riding crashed into the sea. The pilot and another officer in the plane suffered slight cuts and bruises.

Big Stamp in Shipbuilding

Industry Suffers Most Decided Drop Since Great War

Shipbuilding throughout the world suffered its most decided slump since the war during the last summer, the department of commerce announced recently.

Reports for the third quarter of 1925, ended Sept. 30, received from Lloyd's Register, showed a drop of more than 150,000 tons. The motor vessels declined 40,000 tons during this period, construction of other classes of ships, it was stated, has been decreasing steadily.

Construction in this country dropped 22,000 tons, while the decrease in Great Britain was 10,000 tons. The largest decrease was reported from Germany with a 100,000-ton drop. France declined 19,000 tons and Denmark 7,000 tons.

Italy and Holland showed the only increases in work started during this period.

May Be Important Discovery

Cancer Scourge Is Cured By Lead Says Liverpool Professor

Selecting a meeting of the Toronto Academy of Medicine for an announcement of world-wide interest to the medical profession and victims of cancer, Prof. W. Blair Bell, of Liverpool University, and honorary director of the Liverpool Cancer Research Institute, told leading physicians of the city of the successful treatment of the dread disease by the chemical agent, lead. He cited several instances in which remarkable success had been achieved, and assured the members of the academy that 50 or 60 patients were believed to be well, out of about 200—mostly hopeless cases—treated.

Many Savings Accounts

There were 101,516 savings accounts in Hawaii banks during the past year, totalling \$21,708,371.75. Anglo-Siam accounts registered the highest total, while savings deposits by Japanese increased more than \$1,000,000 over the previous year.

Remember there is a limit to human endurance. The man who stands up for you may be in the course of time and still down.

Wide Phone Service

Long Distance Service in Alberta Has Been Made Continuous

With due ceremony, the inauguration of the continent-wide telephone service from Alberta was celebrated recently, when Governor Brett of Alberta conversed over the long distance telephone with state officials in the states of Montana, Colorado and Arizona, and with Chief Justice Anglin of Ottawa, Ontario. The inauguration of this service, by which Alberta telephone subscribers will be able to converse with any point in the United States and with many points in Eastern and Western Canada, and on the coast, was made possible through the co-operation of the Mountain States Telephone Company with the Alberta Government. Telephones. Repeaters have been installed at Lethbridge, Calgary and Medicine Hat, and copper circuits set up from Lethbridge to the boundary of Montana, linking up with copper circuits already north from Shelby, Montana. This has made possible the connection with the transcontinental system in the States.

In connection with the historical step taken by the Alberta Government, it is interesting to note that long distance service in the province has grown from 1,000,000 calls in that time the revenue from long distance service has grown from \$88,300 per annum to over \$1,000,000 per annum.

The first commercial call over the new universal system was given from Edmonton, when a resident of Edmonton conversed with a friend in Minneapolis, Minnesota.

Advance in Medical Science

Toronto Doctor Announces New Serum For High Blood Pressure

A serum which may reduce the morbidity of high blood pressure, was described by Dr. F. H. G. Sharp of Toronto, at the annual meeting of the American College of Surgeons, Philadelphia.

Dr. Starr said that William J. McDonald had been working on the serum in the research laboratories of the University of Toronto for some time, but that it had not yet reached a point to permit a detailed description or an optimistic statement of its probable efficacy. He said the serum was a liver extract. High blood pressure, he explained, usually was due to hardening of the arteries, which is caused by an inflammation, possibly of germ origin.

Edmonton Attains Majority

Was Officially Created a City on Nov. 7, 1904

Edmonton became an adult among cities on Nov. 7.

Just 21 years ago, on November 7, 1904, Edmonton was officially created a city. Since that date the population has grown from 7,500 to 65,378.

There are 50 trains entering the city daily, as compared with one then; 13,434 telephones in use where 450 supplied the baby city.

The fur trade and the Klondike rush put the city on the map in the early days.

Now it is the legislative and educational centre of the province and the marketing point for Central and Northern Alberta, as well as the gateway to the Arctic fur lands.

New Colonization Plan

Community Move of British Settlers to Canada Is Proposed

While the department of immigration is working with the overseas settlement board on a full cooperative plan for the purpose of increasing immigration to Canada from the United Kingdom, a scheme was made at the department of any personal knowledge or official connection with a new scheme of colonization, reported from London, calling for the migration of 50,000 families to the Dominion within a period of five years.

These families, according to the cable report, were to be settled on Canadian farms in communities, and not in colonies.

Askes of Climber Scattered From the summit of one of the highest mountains in the lake district, north of England, the cremated ashes of Seymour Gibbs were scattered to the wind as a fitting funeral rite for a mountain climber. Mr. Gibbs, who 28 years was a member of Tanglewood School, Northampton, has been noted as a mountain climber for many years. Fellow climbers conducted the funeral service.

Mr. Gibbs' father gave me a dollar every birthday. I have now eighty.

He: How much does she still owe you?

Many a woman uses make-up merely because she hasn't got cheek to do without it.

A Western Editor M.P.

Cameron R. McIntosh, B.A., Liberal member for North Battleford, is the only editor which Western Canada is sending to Ottawa.

Mr. McIntosh publishes three weekly newspapers, The North Battleford News, The Turf and Record and the St. Walburg Times. Mr. McIntosh has been an active member of the Saskatchewan Press Association since it was first formed, and on the executive since it had an executive, serving several terms as president. He was one of the Saskatchewan editors who went over to the European continent with the Canadian Weekly Newspaper excursion in 1924 and were honored in most of the capitals of Europe, and entertained by royalty in Great Britain and Belgium, and by Marshal Foch in Paris. He is an enthusiastic Canadian Club member, organizer and first president of the Canadian Club of the Battlefords, and for two years represented Saskatchewan as vice-president on the national executive of the Canadian Clubs of Canada.

Mr. McIntosh is a member of the Canadian Club of the Battlefords, and for two years represented Saskatchewan as vice-president on the national executive of the Canadian Clubs of Canada.

Surgeons Revert To Old Practice

Doctor at Johns Hopkins College Tells How Injections Purify Blood

Modern surgeons have partially reverted to a practice of the Dark Ages, when blood letting and leeches were considered the most efficacious of remedies.

The medical wizards of those ages believed the blood stream carried all diseases. When a man in those days had a fever, a cold, or "effluvia" for any sort, a "chirurgian" was called in and his patient was of vice blood.

But, although modern science has returned in part to this practice it is teaching also that the blood stream can be purified with powerful injections—known as diathermies.

All this was brought out by Dr. Hugh N. Young, of Johns Hopkins Medical College, in explaining the work undertaken by the American College of Surgeons in the formation of a committee on antiseptics, of which Dr. Young is chairman, to gather material for a vast symposium on modern antiseptic surgery.

This work is undertaken as a memorial to Elster, the hundredth anniversary of whose birth will be celebrated April 15, 1927. Later, working on Pasteur's theory of the germ origin of infection, by his antiseptic discoveries, laid the foundation for modern surgery.

Circles Globe In Small Boat

"Liberty Navigator" Travels 38,000 Miles in Homemade Craft

Circumnavigation of the globe in a 34-foot skiff was accomplished by Harry Pidgeon, 54-year-old photographer, known to many as the "Liberty navigator." He made port at San Pedro, Cal., after travelling 38,000 miles in his homemade "Liberty" skiff, the "Islander," since he set sail from San Pedro, November 18, 1921.

The "Islander" was a small, narrow, flat-bottomed boat, built of canvas and wood, and was equipped with a small engine and a small sail.

Mr. Pidgeon, who is a well-known photographer, has been travelling for many years, and has been to many of the most remote parts of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

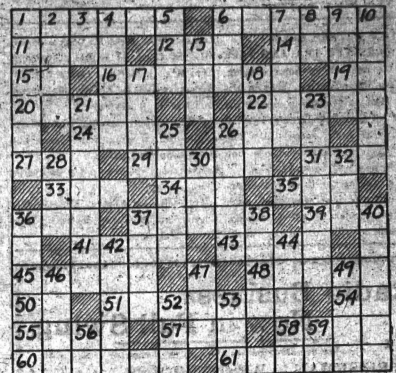

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

He has been to the North Pole, and has been to the South Pole, and has been to every part of the world.

Keep Tenth Commandment

One Reason Why Canada and U. S. Live Peaceably

Canadian officials have issued figures on the automobile tourist influx into the Dominion during the past year, setting forth that 2,000,000 automobiles crossed the line, carrying 9,000,000 travelers. The astonishing fact is that these 9,000,000 travelers, chiefly from the States, equalled in number the total population of Canada.

That is, a staggering Americans doubled temporarily the population of our northern neighbor. The migration was made without difficulty. The visitors spoke the same language, ate the same food, wore the same clothes, and the United States currency was accepted without question. A common language has much to do with the ease with which tourists are made at home.

The chief reason for this freedom of travel is that Canada and the United States are free from Anglo rivalry. Politically, Canada and America keep the Tenth Commandment. If European countries would not "covet thy neighbor's goods" many munition factories would go broke. — San Francisco Bulletin.

High Standard of Living

Conditions of Living in United States Highest in History Says Hoover

Material conditions of living for the people of the United States during the last year have been the "highest in all history," Secretary of Commerce Hoover made public as part of the annual report of the commerce department.

Factors listed by the secretary as contributing to this condition included a practically complete absence of unemployment, high wages, efficient railroad operation, an equitable balance of prices among the greater producing groups of the population, and a gradual return to stable currencies and normal business operations among the nations abroad.

Need Alaskan Base

Useless to Attempt Trip Otherwise Says Veteran Arctic Navigator

Aircraft can be successfully utilized in Polar exploration, providing the flights are attempted from a large base in Alaska, according to Captain Bob Bartlett, veteran Arctic navigator, who was one of the late Commander Peary's party when he made his dash to the Pole in 1909.

"It is useless to attempt to fly across the vast Arctic regions adjacent to the Pole, with only a few months preparation and with small planes," said Captain Bartlett. "And personally, I don't believe it is wise to expect large sums for expeditions of this nature, who hope to make the flight from such places as Alaska. There is one place where these flights can be started, and that is off the Alaskan coast and in the Polar Basin."

Find Valuable Collection

Chest of Drawers in Mayfair Yields \$76,000 in Stamps

A collection of postage stamps hidden in an old bureau in a Mayfair home in London, sixty years ago has been accidentally discovered, and found worth \$75,000. The original value was \$1500. Search for a lost jewel case led to unearthing the famous collection of stamps. Some of the stamps were never before seen by collectors. The most interesting are two sheets of Railway Company stamps, issued in 1855—the only sheets of these stamps existing. The grandfather of the owner's husband collected the stamps when he was young. Collectors from many parts of Europe will attend the sale of the collection.

Wonderful New Device

A demonstration of a device for the photographic recording of heart sounds, which is expected eventually to have thousands of lives annually, by making possible improved methods of diagnosing heart diseases, has been given by the Columbia Phonograph Company, New York. It is possible to record sounds which ordinarily are so faint as to escape detection by the human ear.

Broadcasting Duck Calls

Oakland, Calif.—A device for broadcasting duck calls has been invented by V. O. Hays, graduate of the Yale University. Radio apparatus has been installed in the duck's presences, and with the opening of the shooting season in October, an "electronic" quack will be scattered among the duck blinds.

Canadian Airships Win Prizes

An airship race in the Canadian Airs Association of Great Britain and Ireland, announces that Airships took six champion cups at the recent Royal Air Show, London.

It Was a Wit Who Said That

Mr. C. W. C. said that many of the things that he said as a pleasure, were said by a wit who said that his husband and he were not.

EXTRA SPECIAL OFFER

FOR SUBSCRIBERS TO

THE BLAIRMORE ENTERPRISE

-:- Southern Alberta's Best Weekly Paper -:-

As a Crowning Triumph to the many improvements recently made to this popular home journal, The Enterprise offers a wonderful new

INSURANCE POLICY FREE !

No other weekly newspaper in Canada has ever offered its readers such a magnificent and generous gift. The benefits offered by The Enterprise have been carefully and skilfully planned, so that they will at once make a universal appeal.

The Breadwinners coming home from their work—Husbands and Wives who encounter the daily perils of the street and travel—the Children who in every-day life run many and frequent risks—all have received consideration in framing this, the first and only Insurance Policy ever offered by a weekly newspaper in Canada.

Read the list of benefits below and avail yourself of this wonderful protection by becoming a member of The Blairmore Enterprise Insurance Club AT ONCE—tomorrow may be too late.

\$1000.00 Accident Policy

THE POLICY COVERS YOU

While riding in or driving your own, or any one else's automobile.
While riding in or driving your own, or any one else's horse-drawn vehicle.
While in any public conveyance of any description, such as a train, taxi, steamship, subway, bus, trolley, elevator, etc.
While bathing.
Through the collapse or burning of a building.
Through the collapse or explosion of a boiler.
Through a tornado, cyclone or earthquake.
By being struck by lightning.

AND PAYS YOU

\$1,000.00 for loss of life, limbs or sight.
500.00 for loss of either hand or foot.
250.00 for loss of thumb or forefinger.
125.00 for loss of one or more fingers or toes.
50.00 for loss of either eye.

And many other payments for various injuries.

\$100.00 REGISTRATION BENEFIT

Should the insured be injured away from his home or friends, the Company will pay the expenses of putting him or her in care of, or in communication with friends, up to \$100.00.

AGE LIMITS 16 TO 65

MAN OR WOMAN

NO MEDICAL EXAMINATION—NO RED TAPE

This Policy means SATISFACTION to you
It has been written for YOUR Benefit

What you have to do

Simply subscribe to The Blairmore Enterprise for One Year at the regular price of \$2.00 a year, or Six Months for \$1.00, and pay the Club Registration fee of \$1.00, and a regular numbered policy will immediately be mailed to you.

\$50,000,000.00 Security for Policy Holders

The policy holders are insured in the General Accident Assurance Company of Canada. There is over \$50,000,000.00 as security for policy holders behind the policies.

MAIL THIS COUPON AT ONCE WITH \$3.00 OR \$2.00.

Protect your loved ones today. Tomorrow may be too late.

Remit by Dominion Express Money Order, or Postal Note.

THE TEN COMMANDMENTS

(For Young Wives)

1. Don't commit indiscretions that lay you open to suspicion of graver things.
2. Don't treat your husband as if he were omnipotent and then complain later because he believes it himself.
3. Don't treat your husband as if he were a trespasser in his own home.
4. Don't sing the praise of other women's husbands, suggesting how much more generous they are than your husband.
5. Don't everlastingly preach that your husband is a failure, thinking it will inspire him to success.
6. Don't tell all your private business to your own women friends.
7. Honor your husband's father and mother—especially his mother.
8. Don't preach economy to your husband while you spend extravagantly on yourself.
9. Don't hold your husband to a strict accounting of all the promises he made as a man.
10. Permit no other loves to come between you and your husband—not even the love for your child.

(For Young Husbands)

1. Don't marry unless you want a family.
2. Don't be dogmatic in your home.
3. Love your wife as you love yourself.
4. Strive to get your wife's point of view.
5. Don't lie to your wife about finances.
6. Remember that you married a human being; not an angel.
7. Don't stray from your own bedside too many nights of the week.
8. Kiss and make up quarrels before going to sleep. Hang-over fights lead to divorce courts.
9. Don't complain about your wife to some other woman.
10. Be generous with praise.

—Collier's Weekly.

"The Ten Commandments" will be shown at the local Orpheum Theatre on Friday and Saturday, November 27th and 28th. Matinee Saturday for the young folks.

FORD PRODUCTION RECORD

Eclipse all October monthly production records in its history, the Ford Motor Car Company of Canada, produced a total of 9200 finished cars during October 1925, an increase of 4172 over the previous high month, October 1923, when 5028 cars were manufactured.

Of the present month's production, more than 5000 were for export. In October, 1923, 3046 were sent abroad. The figures are for the main plant at Ford City, Ontario, and the eight assembly plants throughout Canada.

Ordinarily October is one of the duller seasons of the year in the automotive industry generally. Increase at this time is based on splendid crop conditions, officials say, coupled with the popularity of new models.

HIGH RIVER FLYER MAKES BIG PARACHUTE JUMP

HIGH RIVER, Nov. 16.—While hundreds watched breathlessly from the streets of High River on Saturday, Flight Lieutenant A. Carter, R.C.A.F., made a parachute jump from a height of 20,000 feet off a forest patrol service plane, and miraculously escaped either death or serious injury when he landed within 100 feet of the ice covered Big Lake, 11 miles east of High River.

Pulling the release cord as soon as he was clear of the machine, Lt. Carter dropped from a point nearly four miles up, when the towering Rockies to the west looked like an Arctic ice field away below, and was carried some distance east by the stiff breeze that was blowing, to the edge of the lake in 17 minutes, where he made a normal landing, striking the earth gently with his feet.

His daredevil feat is exceeded only by the world record of Captain Arthur Stevens of the U.S. Air Service, who once jumped 26,000 feet. It is the highest ever made outside of the United States.

The long jump was made in a regulation Irving parachute, as used in the Royal Canadian Air Service. The ascent to the machine, which was piloted by Flying Officer G. Dixon, took an hour, the air becoming considerably colder as the plane made each mile in long circles. At 20,000 feet it was three below zero. It was hoped to land near the aerodrome, but as the wind became much stronger near the 20,000 foot level, the calculations of the aviators were somewhat upset, with the result that the landing was made at the edge of Big Lake, eleven miles east of town. Carter's feat is considered all the more remarkable in view of the fact that he was 23,400 feet above sea level when he jumped, as High River is 3400 feet above sea level, also that the November weather made it far colder up at that height than it would be in summer weather, when, it is understood, Capt. Stevens broke a world's record.

THE DIFFERENCE

A smile of joy flitted across the waiter's face as he glanced toward a certain table where a patron had just seated himself.

"Yes, sir?" he enquired politely, on going up to the table.

"I'll have a steak and potatoes," remarked the customer, "and you might bring me some rolls."

"Yes, sir. Steak and potatoes, sir," echoed the waiter. "And would you like chops and peas along with it?"

"No, thank you."

"Roast beef, then, sir? Or perhaps a little cold ham?"

"No, no! Just steak and potatoes."

"Well, how about a nice lobster with that steak, sir?"

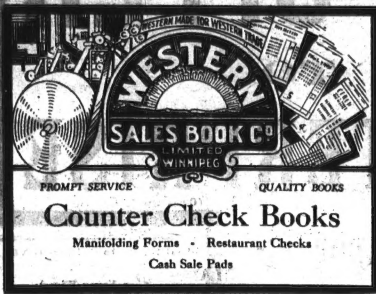

"No."

"I can recommend—" began the waiter, but got no further. The proprietor had heard the whole conversation, and, with an angry exclamation, he beckoned the waiter to his side.

"What do you mean," he said, "tormenting that customer in such an outrageous manner?"

"Tormenting him, sir?" queried the waiter. "I was only trying to make him feel at home. He's a barber, sir."

Counter Check Books AT PRE-WAR PRICES

A DOLLAR DOWN AND A DOLLAR A WEEK

1st Verse
O, a friend of mine bought a gramophone
For a Dollar Down and a Dollar a Week;
Said he, "It's the easiest graft I've known,
This Dollar Down and a Dollar a Week.
So he bought a rug and a fountain pen,
A leather chair and a desk and then
A set of the lives of our famous men
For a Dollar Down and a Dollar a Week.

2nd Verse
He bought a suit, and hat and shoes
For a Dollar Down and a Dollar a Week;
He joined a lodge and he pays his dues
With a Dollar Down and a Dollar a Week.
He bought a ring that was fair to see
For the lily white hand of his bride to be,

3rd Verse
Got married and paid the minister's fee
With a Dollar Down and a Dollar a Week.
When the babies came, the doctor got
A Dollar Down and a Dollar a Week.
My friend he clothed and fed each tot
With a Dollar Down and a Dollar a Week.
Oh, how he did it, goodness me
Is really more than I can see,
For all he got for salary
Was a Dollar Down and a Dollar a Week.

4th Verse
His wife then said, "I must be free
From this Dollar Down and a Dollar a Week."
She sued for divorce and the alimony
Was a Dollar Down and a Dollar a Week.
So week by week he lived until
A ripe old age; then he died but still
His friends are paying the funeral bill
With a Dollar Down and a Dollar a Week.—Hughes.

Customers, Cash Registers and Profits

It takes a steady flow of customers to your store to keep the cash register tingling with profit-making regularity.

ADVERTISING in "The Enterprise" would help to keep old customers interested in your store and bring new ones. It spreads the news about your store and its merchandise far and wide to the women of this community. Advertising is the most efficient, economical business-building force at your command.

Why not investigate the possibilities?

PROGRESSIVE MERCHANTS ADVERTISE

Issued by Canadian Weekly Newspapers Association

STEADY DEVELOPMENT IN MINING INDUSTRY

The deputy minister of mines, Dr. Charles Camsell, has recently visited northern and western Canada for the purpose of maintaining contact of the federal department with the provincial bodies concerned in the development of mineral resources, and of keeping in touch with the progress of mining in the different parts of the Dominion.

Referring to northwestern Quebec, the deputy minister reports that while some disappointment was felt in this region in the early part of the summer over the delay in the selection of a railway route into the new mining camps, the difficulty has now been overcome, and with the discovery of some new gold, copper, and zinc deposits there has been a renewal of activity and restoration of confidence in the early development of this field.

The mining industry in Ontario is on a solid foundation and while the growth in the north in the past twenty years has been nothing short of remarkable, there is good evidence to indicate that this advance will continue for many years to come. As the earlier locations become exhausted, fresh discoveries are made in the same or adjoining fields with the result that there is a gradually increasing production as time goes on. In this province as well as in the old mining provinces of Nova Scotia and British Columbia there has been a decided tendency towards the re-examination of certain fields and properties that have either lain dormant for a number of years or have been considered exhausted. This tendency has been due partly to the increased demand for lead, zinc and other metals. There is, moreover, a belief among experienced mining men that with the increased knowledge obtained in recent years regarding the nature and occurrences of ore deposits and of improving metallurgical methods, particularly with respect to gold ores, certain deposits considered unprofitable twenty-five years ago might now be worked at a profit.

Manitoba is proceeding steadily with the development of her mineral-bearing territory, and in the region east of lake Winnipeg new discoveries are extending beyond the provincial boundary into the province of Ontario. A healthier and more confident attitude is evident in British Columbia than has prevailed for some years and here as in Ontario there has been a movement into new territory as well as a reappraisal of properties that have been dormant for some years.

One of the interesting features of mining development in Canada is the new outlook for oil production in Alberta as a result of developments in Turner Valley in the foot-hills region. Up to last year the energies of oil mining companies had been devoted almost entirely to the search for oil in strata near the base of the cretaceous formations. The finding of a heavy flow of wet gas far below this horizon in carboniferous strata last year has presented new possibilities and given a fresh impetus to oil prospecting. Attention is consequently being directed to deeper drilling in the foot-hills belt where structures are more pronounced and more easily detected than in the plains.

The particular well responsible for the optimism which prevails struck a heavy flow of gas last year at 3740 feet. The gas is under such pressure that as a result of expansion it reaches the collar of the well at a temperature of 22 degrees F. below zero. The well was out of control for a short time but for some months past a daily recovery of about 500 barrels of gasoline has been made from the gas. [Dr. Camsell attended the convention of the Canadian Institute of Mining and Metallurgy in Blaimore last year.]

Rev. W. J. Merrick, pastor of Christ Church at Macleod for several years, has moved to Red Deer, where he assumes the rectorship of the Anglican congregation. Rev. G. McComas, M. A. of Red Deer, succeeds Rev. Merrick at Macleod.

The year 1924 has been the most encouraging for Canadian flax growers since 1920. The growing and retting conditions in western Ontario, where practically all the Canadian flax is at present produced, were very favorable, with the result that an exceptionally high yield of flax and seed has been obtained. Some commercial areas have produced as high as 330 pounds of fibre and 16 bushels of mill-run seed per acre.

Removal of more than one million individuals from the federal income tax roll by increasing exemptions and wide-spread reductions in these levies, were voted by the Washington house ways and means committee recently. The income tax exemption figures agreed upon were \$1500 for single persons and \$2500 for heads of families, compared with \$1000 and \$2500. By the amendment \$200,000, or 16 bushels of mill-run seed per acre, will be knocked off the income tax assessment.

Now, Isn't It Just Like a Man? They arrived home late from the party. Wife took off her hat and slammed it on the floor. Then she confronted her husband. "I'll never take you to another party as long as I live!" she said. "Why?" he calmly wanted to know. "You asked Mrs. Jones how her husband was standing the heat?" "Well?" "Well, her husband has been dead two months!"

Winter Time is Carnival Time in Banff

Banff in winter time is fairyland. Shafts of the sun strike the white snow-covered mountains and valleys of the Canadian Rockies, changing them into a landscape of flashing iridescence. Colors—blue, red, green and purple—dance over the scene, as gaily costumed skiers of the snow shoe, the skate and the ski, move in the pastel of the great outdoors. They skaters swing gracefully into intricate figures on the white. Ski jumpers thrill the spectators with their various leaps through the air from the ski jump on the top of a nearby mountain. Ski-jumpers dash down the Bow River behind foot mountain peaks. Blanket-coated snow-shoe trampers take the trail to the snowy woodlands. In the evening, the brilliant scene is softened by the silver gleam of the moon. Winter time is carnival time in Banff. February 28 to 17th has been set for the 1925 Winter Carnival, and Mrs. Basil Gardons has been chosen as the fair Queen. A splendid palace of glittering ice, sparkling with myriads of bright colored electric lights is being built for the chosen beauty. With true regal pomp and splendor she will be crowned and seated on her throne as the culminating triumph of the carnival. Trains pull into the station at Banff. Passengers on their way west stop off to deposit themselves in the snowy, gay little town. Passengers on their way east delay long enough to see the famous ski jumpers breaking world records. Passengers from both east and west with Banff in their objective, and snow shoes, skates and skis in their luggage, hurry to attend the festivities in honor of the carnival queen.

THE ORDER OF ELKS

Tony McKinley, grand organizer of the Benevolent and Protective Order of Elks, answers a few questions about the organization and tells something of its objects:

The question is sometimes asked, "How much will it cost me each year to be an Elk?" Some are under the impression that members are frequently assessed for the purpose of "putting over" various community work propositions. The answer to this question is "One dollar each month." This amount is quite ample to conduct the affairs of the lodge and then some.

The great Order of Elks must always keep in mind the fact that the membership is made up very largely of men of moderate means who are nevertheless most anxious to contribute their bit, in the way of work and boosting, to the ever increasing number of community service enterprises, whether they be of local, provincial or national character. Everywhere, men, and especially young men, are waiting for the lead—waiting for the opportunity to follow in the path of "service to others."

Many are proven to be excellent leaders when given the opportunity and the encouragement. The Benevolent and Protective Order of Elks is endeavoring to give this great army of men the opportunity and the urge, by banding together for a common and an unselfish purpose.

Everywhere, where the Order undertakes to plant the seeds of charity, justice, brotherly love, fidelity, patriotism and service, there are un-

selfish business and professional men who come forward with the lead and the encouragement. In every Alberta town where an Elk organizer has started a lodge, the mayor has been in each instance one of the first to indicate his approval and support by handing his application to the organizer.

The order also seeks through the lodges to give its members and their lady friends a good time. The ritualistic work is reduced to a minimum so that those attending meetings may have some time for social intercourse and fun. It encourages sport. It helps the kids in their troubles, their work and their play. Show me a true Elk and I will show you a man who loves children and who loves to help them. I can do no better to elucidate and portray the spirit of Elkdom than to quote the following lines from J. Alexander Killingsworth, the grand old grand secretary of the Order:

It's good to be an Elk, boys!
It's fine to do our share
In helping make life sweeter
For pilgrims everywhere.

It's good to be an Elk, boys!
To give our service free;
For "Service" is our watchword
Wherever we may be.

It's good to be an Elk, boys!
Because it means that we
Can find our best enjoyment
In helping cheerfully.

It's good to be an Elk, boys!
Because the Lord's decreed
That man should love his neighbor
And help mankind in need.

It's good to be an Elk, boys!
Because we understand
That others, too, have burdens
And we can lend a hand.

It's good to be an Elk, boys!
Because the children say
The Elks are friends of theirs and
For these good men they pray.

It's good to be an Elk, boys!

It gives us all a thrill
To hear the salutation
The valiant "Hello Bill!"

It's good to be an Elk, boys!
For when we're laid away
We'll then be absent brothers
Till resurrection day.

It's good to be an Elk, boys!
So let us do our part
In planting seeds of kindness
In every human heart.

CARD OF THANKS

Blairmore, Alberta,
November 11, 1926.

Editor Blairmore Enterprise.

I have been requested by our members to convey to you our sincere thanks for the 200 programme printed free of charge for the Memorial Service held in the opera house on the 9th instant, under the auspices of the I.O.E. and G.W.A.

Yours truly,

MARY E. HENDERSON,
Secretary, I.O.E.

The United States government is being very much worried over its far flung bottle line.

Better give your friend an occasional bouquet along the way, than a heartful on his funeral day.

God created women beautiful and foolish—beautiful so men would love them and foolish so they would love men.

The Canadian National Railway has established a motor train service between Edmonton, Vegreville and Vermilion, affording daily trips, except Sundays.

Mr. H. P. Thoreson and Miss J. Galloway have received notice to appear in Calgary on November 28th in connection with the suit for damages taken against the Blairmore School Board. Mr. I. Dutil and Mr. J. R. Gresham are to be examined for the defendants.

COWLEY HAPPENINGS

Mrs. Henry Frame, who is on the sick list, is improving.

Several of the Cowleyites attended the dance at Lundbeck on Friday night.

Threshing will soon be finished in this district, if the present good weather continues.

The grain is of a better quality and is sprouted less than the farmers thought it would be.

Mr. and Mrs. Walter Scottier have returned from Lethbridge, where they had spent a few weeks.

Mrs. E. Wahl, of Lethbridge, has returned, after a few days' visit with her parents, Mr. and Mrs. Costes.

The Daubhebers have just threshed a field of fall wheat adjoining town that has averaged forty bushels to the acre.

An epidemic of colds is prevalent in these parts at present, with several of the local people under the weather.

While motoring on Monday, Walter Wilson and his mother had the misfortune of being badly shaken up when the car turned over with them. Walter was pinned beneath the car until help arrived.

A pleasant evening was spent over the whist tables on Wednesday last. The prize winners were as follows: Ladies' first, Mrs. Latta; ladies' second, Mrs. Archie Swart; gentlemen's first, Mr. McDonald; gentlemen's second, Thomas Shepard. The boobies were awarded to Mrs. Brockwell and Miss Martha Tustian. The committee for the evening was Mrs. George Porter, Mrs. Powell and Dick Alexander. A vote was taken at this drive in favor of the Women's Institute taking charge of the drives for the season.

SAYS BRITAIN IS WORKING FOR EUROPEAN PEACE

Capetown, South Africa.—The attitude of the British Dominions to the Locarno pact was dealt with by General Jan Christian Smuts in a speech

before a meeting of the League of Nations Union here, when he declared that whatever their opinion might be about the policy of British adherence to the treaty, they should consider

to the treaty, they should recognize with pride that Britain, in accepting the dangerous obligations of the pact, had no end of her own to serve. She was acting, he said, with a single eye

to the future, and for the peace and welfare of Europe, and that from her viewpoint it might be better to keep out of that vast entanglement. The British Empire had not acted with a

united front in the negotiations leading up to the signing of the pact and he doubted whether all the Dominions were likely to adhere to it.

The British Empire, with a united policy, which all parts had helped to shape and could approve and endorse, would be a great power in the world, General Smuts said.

Railway Would Solve Development Problem

Hudson's Bay Area Rich In Iron Ore
Says W. T. Curran
Winnipeg.—W. T. Curran, Montreal,
a fellow of the Royal Geographical So-

ciety, and an admitted authority on the Hudson's Bay area, in an interview here, declared as soon as the Hudson's Bay Railway was completed, the development problems of the Hud-

"There are sufficient iron ore deposits above the water level on Nastapoka Island, east of the Bay.

Mr. Curran has visited the area several times since 1967 and has spent

years studying the geographical formation, together with the late Dr. R. Bell, of the Dominion geographical survey.

He stated that he knew from personal observations that the Hudson Straits were open from four to five months of the year and that he had been assured by experienced naviga-

tors that the passage during this period "presented no difficulty to anyone who understood the northern and southern channels which led to the entrance."

**Imperial Trade Allied
With Empire Settlement**

**Canada's Food Controller During War
Says "Trade Follows the Flag"**
Vancouver.—"What we in British
Columbia should example with is to

Columbia should grapple with, is, to my mind, how are we to help the empire and ourselves by getting ready and having a policy, plans and organization to take care of the people

who want to come here and settle and be producers," said H. B. Thomson, food controller of Canada during the war, in an address to the board of trade. Mr. Thomson recently return-

ed from England and as a leading economist of the country, his remarks were listened to with keen interest. Imperial trade, Mr. Thomson pointed out, was very closely allied with

He alluded to the trade possibilities and said Canada's wheat production

alone in 1923 could have supplied the whole of Great Britain's requirements. He gave figures to show the vast markets for Canada's products in Great Britain.

Organizing In Victoria

Been Started
Victoria.—The Times says: "Organization of the Canadian Ku Klux Klan has started in Victoria. Captain W.

B. Laycock, D.S.O., one of the leaders in the movement on the mainland, arrived from Vancouver Thanksgiving Day and at once started organization work going. The Klan here will be a

branch of the Canadian organization which has its headquarters in Shaughnessy Heights, Vancouver.

"Local Klansmen will wear the full hooded regalia and take their oath

Walked Across Canada To Find Work
Vancouver.—After walking from St.

John, N.D., to winter in Vancouver. Mr. and Mrs. Harry Bedgood are now wondering how much farther they must tramp before finding work as cooks, their chosen calling. The

couple plan to commence a return hike
across Canada next spring

THE CHARM

of a woman's appearance depends to a certain extent upon the jewelry she wears. She also likes to have in her home the proper kind of silver service. We offer many designs in silver tea services. It is quite impossible to tell all about them here. You must see them to know them. They are very artistic and beautiful.

Items of Local and General Interest

Kimberley Oddfellows will erect a lodge building to cost about \$10,000.

A tourist party, westbound, stopped at the Blairmore campsite last night, likely the last for the season.

Inspector Field, of the R.C.M.P., was a visitor to the Blairmore detachment on Tuesday.

A large twenty-five-passenger motor bus for use on the Cranbrook to Kimberley run, passed west from Calgary on Monday.

Miss Frances Gibeau entered the local hospital on Monday morning to undergo operation for appendicitis, which is reported to have been successful.

Michel Rossi returned to Vancouver by Sunday morning's train, having made a trip through Europe while here on a Scotchman's vacation allowance.

Miss Hamilton, daughter of Mr. and Mrs. W. L. Hamilton, formerly of the Leitch Collieries, Passburg, is visiting friends at Passburg and Bellevue at present.

We are asked to announce that the special meeting of the Blairmore Lodge No. 15, B.P.O.E., which was to be held tomorrow night and of which notices to this effect have been mailed, has been called off.

Maedon Times: The Rev. W. H. Irwin and family have returned home from the capital city, where they were called by the death of Mrs. Irwin's mother, who was buried on Monday.

A. A. McGillivray, leader of the Conservative party in Alberta, has announced that a Conservative candidate will be nominated in every riding in Alberta for the forthcoming provincial elections.

Some locals claim that the fact that thirteen chairs appeared on the platform for the Conservative rally at the local opera house might be held responsible for John Herron's defeat in the recent elections.

A Hillcrest man went fishing on Waterton river this summer. One day he caught a big fish, the biggest he had ever landed in his long and busy life. He was naturally elated. He was crazy with joy and telegraphed his wife: "I've got one, weighs seven pounds and a beauty!" The following was the answer he got: "So have I, weighs ten pounds, not a beauty—looks like you. Come home!"

A hot supper and concert, with a humorous lecture on "A Camera Trip Through Bonnet Garden," by the Rev. J. H. Gordley, B.A., of Pincher Creek, will be held in the Hillcrest United church on the night of Monday, November the 30th, under the auspices of the Ladies' Aid. Supper will be served from 5.30, concert at 7.30.

The members of Grade VIII Literary Society spent a very enjoyable evening in the Grade VIII room of the Blairmore school on October 30th. The occasion was a Halloween party. A short but enjoyable programme was rendered, followed by Halloween frolics. Afterwards a supper was served. The party closed with "God Save The King."

Large audiences attended the United church on Sunday morning and evening last and on each occasion were treated with eloquent and interesting discourses. At the morning service, Rev. Dr. J. T. Ferguson, superintendent of missions, took the service. At the evening service, the special speaker was Rev. Capt. A. J. Brace, returned missionary from China. Mr. Brace delighted the audience with his references to the Chinese at home. The service took the form of a missionary service and hymns and a special anthem were appropriate.

James Lote and Jack Woods, of Coleman, were visitors to Lethbridge on Wednesday afternoon.

Miss Evelyn Shaw, Coleman teacher, spent Thanksgiving at Cardston with her parents, Mr. and Mrs. Verne Shaw.

Wm. Lynch, of Beaver Mines, recently sustained a fractured arm while working around a threshing machine.

Terrelli, the man who first made a vacuum, was the only inventor who produced absolutely nothing and got credit for it.

A. Caccioni, one of the candidates for the office of secretary-treasurer of the new district union of miners, is now at Wayne.

Twenty years ago last Monday the first provincial election was held in Alberta, when twenty-three Liberals and two Conservatives were returned.

The Rev. H. Laurence Nobbs was in Calgary during the week, attending the Diocesan Conference, at which he delivered an address on "Religious Education."

Another successful smoker concert was held in the K. of P. hall at Coleman on Saturday night last. A larger crowd than usual was present and a delightful programme was rendered.

Merchants of Red Deer and district recently staged a Dollar-Day Sale and advertised the same liberally in the local press. The event is said to have been the most successful in the history of the district.

The annual financial statement of the Cardston Amateur Athletic Association shows a net surplus for the year of \$241.83. With Charlie Chessman at the helm the sport ship rides successfully at Cardston.

Registrations of passenger automobiles in Canada numbered 678,975, of trucks 55,572 and of other motor vehicles 22,574, giving a total of 657,121 registrations in 1924 as compared with 586,550 in 1923.

John Ward, bandit, who pleaded guilty to the charge of robbing the Imperial Bank at Creston, was sentenced to eight years in the penitentiary and twenty lashes. Ward was caught on the afternoon of the robbery, October 20th, with \$2700 of the loot on his person.

A play and dance will be given in the Lundbreck hall on the night of Friday, December 11th, under the auspices of the Lundbreck Women's Institute. A play entitled "The Sweet Family," will be followed by a dance.

The old Sanatorium hotel as a landmark will soon have disappeared. The big building is being dismantled and torn down, the windows, doors and other materials being removed to Coleman where they will be re-used by Mr. J. Michalsky in the erection of new buildings.

Joe Mammel and Louis Palack, who were missing from Coleman for about a week, were located by search parties at a point north of Crown's Nest Mountain on Friday last. The lads left town for a day's hunt, carrying with them but a light lunch. They strayed and were unable to locate themselves for several days and were in an exhausted condition when found.

A suggestion was made by the Coleman Journal last week that if some of the new blood of the 1926-26 Coleman team are to run up against big Jim Hanson, M. Pruden and other giants of Bellevue and Blairmore, an extra staff of nurses would be required at the Coleman hospital. The counter proposal made at Bellevue is that judging by the opinions expressed by the Coleman editor, an institution for the mentally defective is Coleman's greatest need.

Mines in this district are now working five to six days a week.

Mike Murphy is now on our neck and claims that he is not the author of "Horse Hunting in Ireland."

Mrs. James Lote, of Coleman, is visiting in Calgary for a few days with her brother, William Turner.

Despite the severe weather of three weeks ago, thermometers registered 75 in the sun in Blairmore yesterday.

The Trail, B.C., Curling Club have a bank-balance of \$1,478.64. The club makes a rental charge for rocks of \$1.50 for the season.

Miss Lillian Becher, of Macleod, was the guest of her sister here, Mrs. J. B. Wilson, and incidentally attended the golf dance last week.

Ed. Berger was at Lethbridge charged with non-support of his wife and was ordered to pay her the sum of \$100 or in default three months in jail.

Thomas Towers has been found guilty of the murder of Capt. Clews of the Canadian Pacific liner Melita, but was declared insane and will be detained "during the king's pleasure."

The charge against Jesse Mansfield, the Elk Prairie rancher, of attempted murder, in connection with the shooting up of the road gang, will not be heard until the spring assizes at Fernie. Mansfield is at present serving sentence at New Westminster for manslaughter.

The town council of Red Deer recently went on record as wanting to charge a license fee of \$10 where meals were served at a church function, for which a charge was made. The same rule is to apply to all conventions where a charge is made for a banquet served.

Porky sold a horse a short while ago on part cash and balance on deferred payments. After a day or two the buyer said he was not satisfied, because the mare would not hold her head up. "Oh, that's only her silly pride," exclaimed Porky. "She will when she is fully paid for!"

Malcolm Morrison, one of the injured in the explosion near Drumheller last week, is an old timer of this district and was resident of Coleman in 1908 and for several years following.

An official declaration has been made that G. G. Coote's majority over John Herron was 704. The exact figures are: Coote, Progressive, 4929; Herron, Conservative, 4239; Milnes, Liberal, 1941.

A number of items respecting hockey, appearing in the issue of November 15th of the Coleman Journal, would have been reproduced by us were it not for the fact that we considered them a direct insult to Coleman.

Bob McKelvie, who sustained rather serious injuries when the truck he was driving turned over off the new road grade east of Bellevue on Friday evening last, is fast recovering and will be out of hospital at Bellevue in a few days. Bob was unconscious over night and sustained a few fractured ribs, as well as a severe laceration of an ear. Bob is satisfied that it is no great sport to tumble off the new grade.

The pie social put on at the United church on Friday evening last under the auspices of the Blairmore Old Boys' Association, proved a great success. In the neighborhood of \$72 was realized from the sale of 164 pies. The programme was arranged by the Tuxis boys and the Junior orchestra, in charge of Mr. Upton, was present. Mr. L. L. Morgan acted as his usual efficient manner as chairman and Mr. Hanson excelled himself as an auctioneer.

POZZI, Building Contractor, Blairmore.

Goiter and How to Prevent It!

Many children under 18 years have goiter, little girls are most often victims, yet millions of both sexes suffer from it and young men, if unchecked, goiter impairs health, deforms body, shatters nerves.

Goiter is caused by the lack of nature's iodine in the food that we eat, often times, the water (which is a great supplier) does not contain enough of it to do good. This means the lack of iodine in the mysterious thyroid gland of the throat—then goiter. Why not guard yourself against such risks, why not protect you, boy, your girl, your self perhaps, by the use of that famous BRUNSWICK DULSE.

So high medical authorities urge its daily use, they have proved that BRUNSWICK DULSE will supply sufficient iodine to the mysterious thyroid gland so that practically all danger is eliminated. Keep it handy, in your pocket, eat it anywhere, anytime.

BRUNSWICK DULSE is a tasty food with a flavor all its own, first grown and washed by three full size packages. Island Dulse Company, Saint John, New Brunswick, Canada. [NS-3]

A large number of local Blairmore went to Coleman on Friday afternoon to attend the funeral of the late Mrs. John Unsworth, who died in Calgary at the age of fifty-seven years. Mr. Percy Unsworth, of Coleman, is a son, and Mrs. Harry Smith, of Drumheller, a daughter.

BASKETBALL ENTRIES IN SEC-
RETARY'S HANDS BY
DECEMBER FIRST

This season the A.A.R.A. will operate the following leagues:

(1) Men's senior, \$5.00 per team entrance fee.

(2) Men's intermediate, \$5.00 per team entrance fee.

(3) Men's high school and junior, \$2.50 per team entrance fee.

(4) Women's senior, \$5.00 per team entrance fee.

(5) Women's intermediate, \$2.50 per team entrance fee.

No restrictions as to players' qualifications will be placed on the senior and intermediate leagues in either section, and any club may enter two teams in the same league.

In place of the Men's high school league as in operation last year, the Men's high school and junior leagues will be co-operated this year. Junior teams must be comprised of players who have not reached their nineteenth birthday by January 1st, 1926.

This year the entries, accompanied by fees, must be in the hands of the secretary-treasurer, H. D. Weaver, Raymond, Alberta, on or before December 1st.
